

### ← Crossovers

- ▶ Connect pressure control equipment with different ID or OD
- ▶ Best used to step down equipment (move from larger to smaller)

### Swedges →

- ▶ Provide a way to connect equipment with different thread types
- ▶ Available for NPT, EUE, NUE, or casing
- ▶ Recommended for 5,000 psi and lower pressures only

When ordering this equipment please specify the following:

- ▶ ID (inner diameter)
- ▶ Required working pressure
- ▶ Top and bottom union type
- ▶ For crossovers please specify which end is “box” and “pin”

Please see pages 85 & 86 for a list of common part numbers.
