

1st/2nd Year Welding Apprentice

Lee Specialties Inc. designs and manufactures equipment including pressure control equipment, wireline skids and trucks, grease injection skids and associated equipment. We specialize in providing leading-edge technology and innovative solutions that surpass our customers and employee's expectations.

We proudly serve both the national and international markets and are currently expanding with more facilities in Canada, USA and Mexico. We employ the gamut of vocations from skilled tradespeople to professional and are looking for out of the box thinkers to join our growing staff.

We are seeking a **1st/2nd Year Welding Apprentice** to join our team. This position will be based in Blackfalds, Alberta.

General Area of Responsibilities:

Tasks and duties include but are not limited to:

- Operate manual or semi-automatic flame-cutting equipment
- Conduct repairs, modifications and retrofits
- Read and interpret blue prints or welding process specifications

Minimum Qualifications

- Enrolled in or completed 1st/2nd year welding apprenticeship program
- Previous welding experience an asset
- Ability to work independently in a busy environment
- Strong attention to detail

Please provide cover letter, resume, and references with attention to Human Resources

We would like to thank everyone for their interest, however, only those candidates selected for an interview will be contacted.
