

Heavy Duty Mechanic

Lee Specialties Inc. designs and manufactures equipment including pressure control equipment, wireline skids and trucks, grease injection skids and associated equipment. We specialize in providing leading-edge technology and innovative solutions that surpass our customers and employee's expectations.

We proudly serve both the national and international markets and are currently expanding with more facilities in Canada and the USA. We employ the gamut of vocations from skilled tradespeople to professional and are looking for out of the box thinkers to join our growing staff.

We are seeking a Heavy Duty Mechanic. This position is based in the Aspelund Industrial District just outside Blackfalds.

General Area of Responsibilities:

Tasks and duties include but are not limited to:

- Perform component installation and/or repair work
- Diagnose/troubleshoot mechanical, hydraulic and electrical faults or malfunctions
- Assemble and/or adjust equipment
- Repair or replace defective parts, components or systems
- Service or repair as required any shop machinery and /or tools

Minimum Qualifications

- Journeyman Heavy Duty Mechanic
- Assembly experience on OEM equipment
- AC/DC electrical experience
- Experience with hydraulics
- 1 – 3 years' experience
- Ability to work Internationally

Please provide cover letter, resume, and references with attention to Human Resources

We would like to thank everyone for their interest, however, only those candidates selected for an interview will be contacted.
